

Pre-buy Terms and Conditions:

When you pre-buy propane from Thrifty Propane, there are occasions when your last delivery will be less than the amount required to fill your tank. When this occurs, you may purchase additional propane at either the current rate or the rate of the prepaid propane, whichever is lowest, to make up a full fill for delivery, purchase a new pre-buy, or accept the remaining fuel in your current pre-buy with the payment of a Short-Fill fee. If you have purchased a pre-buy that includes a free tank, any refunds are subject to the cost of the tank deducted from any reimbursement, as well as administrative costs and a cancellation fee. All fees are posted on our "Truth in Pricing" page at www.thriftypropane.com. Refunds for propane will be set at the Mt. Belvieu, TX rate from the Wall Street Journal as of the date of purchase or the cancellation date, whichever rate is lowest.

In the event of certain circumstances or occurrences, including but without limitation Acts of God, force majeure, fire, explosion, flood, earthquake, hurricane, tornado, strike, war, act of war, riot, insurrection, terrorism, sabotage, unplanned outage, impassable roads, state emergencies imposed, D.O.T road closures, breakdown of production or transportation facilities, allocation of product at pipeline or other terminal, or other similar circumstances, anywhere in the Thrifty Propane service areas. Thrifty Propane may delay, or limit the quantity of, propane delivered to your residence or not delivered at all. In the event of any disruption, it is understood that Thrifty Propane will make reasonable commercial efforts to deliver the agreed upon quantities to the buyer. However, if the Terminal can't give us the product we are allocated the pre buy propane may not be delivered and the daily rate propane may be all that you can buy. Using whatever sourcing seems most reasonable at the time. Thrifty Propane will make reasonable business to make delivery, but the time of or days after order of delivery is not guaranteed. An alternate heating source is needed and required. You agree and have it to be eligible to buy pre-buy from Thrifty Propane due to the possibility of these unforeseen issues beyond our control.

All prices and fees are subject to change without notice. In the event your propane refill is not equal to approximately 50% of your tank size, a Short-Fill fee may be charged. A \$5.00 fee is assessed for calling to check your prebuy balance without placing any order; however, this fee is waived if checking balances via internet or Live Chat. An annual storage fee of \$0.02/gallon on your remaining prebuy gallon balance will be assessed automatically via credit card or telecheck beginning on the anniversary of your original purchase; in the event the payment is not able to be processed, gallons will be deducted instead at the Mt. Belvieu, TX wholesale rate found on the Wall Street Journal for the total amount due until the payment information has been updated or prebuy balance has been exhausted.

By entering into this prebuy agreement, you are giving Thrifty Propane permission to automatically fill your propane tank with your pre-purchased gallons at any point during the fall season (September through December) in order to better prepare you for the impending winter season.

Allow a delivery time frame of approximately 15 weekdays M-F excluding Holidays, weather permitting. Thrifty Propane is a intermediate provider. Rush services (emergency, expedited,

Tuesday, November 28, 2017

and special delivery fills) may be available upon approval in the event you require a fill sooner than this time frame; please contact a customer service at [800-879-3152](tel:800-879-3152) to discuss the availability and prices for these services. The right of offset fee/compensation can be accessed if the tank percentage reading given to Thrifty by you is not accurate. Make sure the readings given to Thrifty are accurate. If Thrifty delivers propane to you and the reading is more than 50% a short fill fee will be accessed equal to \$29.00 dollars or \$29.00 dollars worth of propane at the ppg charged at date of order. If we have to access the short fill fee an administration fee of \$15.00 will be added also. If you call when the tank is at 30% or less you have a chance of running out. When we deliver the propane if the tank is at 5% or less we will do a pressure test at \$79.00.

This letter supersedes any and all previously-issued prebuy agreements.
